

Eclipse!

Derrick H. Pitts, Sc.D.

The Franklin Institute

Philadelphia

Prior to...

Orientation, training, preparation

Prior to...

Orientation, training, preparation

- Announce eclipse to your community, your engagement partners and...corporate/business partners
 - Explain the what, the when, the how it will affect them
 - Offer your partners trainings to host observing events at their locations.
 - Help them assemble materials for audience activities.
 - Contact and plan local media engagement well in advance, like, now!
- 

Share the experience!

- Allows local businesses and corporate partners to provide viewing opportunities for their employees in situations where they can't leave: including hospitals, schools, day care centers, etc.
- Allows decentralization of the science experience
 - Science happens everywhere
- Distributes the load of viewers from your location
- Potentially builds partnerships for future science events
