Kansas Astronomical Observers)*

Training in Advance

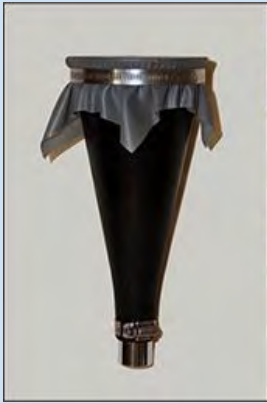

- Eclipse Training
- **FIRST TIMERS: JUST ENJOY – don't spend your totality behind a lens!!**
 - Always put filters closest to Sun
 - Be careful with cameras
 - You can adjust and focus
 - You can turn
 - Full moon after 95% - trip over
 - Light!

Citizen Science aka Community Science

DYNAMIC ECLIPSE BROADCAST INITIATIVE

Make Memories

These eclipses
will be missing
many whose
shoulders we
stand on today.

In memory of
Mike Reynolds
Mike Bennett
